

# HIGH SPEED STEEL DRYWALL CUTOUT BITS

ICS USA

SPECIAL PURPOSE

60° POINT

Drywall Cutout Bits are used whenever a cutout is required in drywall. Ideal for electrical boxes, door and window openings. Fast cutting down spiral bits will not tear drywall paper. Fits most popular drywall cutout tools.

| ITEM NO.       | ILLUSTRATION   | CUTTING APPLICATION  | STEEL SPECS | TECHNICAL DATA          |
|----------------|--|--|-------------|-------------------------|
| <b>DCB1F</b>   | <br>SINGLE FLUTE STYLE              | Heavy Duty open flute design cuts faster than multiple flute design. | M2          | 60° Point Down Spiral   |
| <b>DCB1FT</b>  | <br>TiN COATED - SINGLE FLUTE STYLE | TiN Coating extends life of drill up to 500%.                        | M2          | 60° Point Down Spiral   |
| <b>DCB1FDE</b> | <br>DOUBLE END - SINGLE FLUTE STYLE | Double End Bits drill twice as many holes as a single end bit.       | M2          | 60° Point Down Spiral   |
| <b>DCB2F</b>   | <br>2 FLUTE STYLE                   | General use two flute design cuts quickly and smoothly.              | M2          | 60° Point Down Spiral   |
| <b>DCB2FGP</b> | <br>GUIDE POINT - 2 FLUTE STYLE     | For use in tracing and outlining. Compatible with any rotary tool.   | M2          | Guide Point Down Spiral |
