

CARBIDE TIPPED

MASONRY (PERCUSSION HAMMER) CORE DRILLS

ICS WIS

HEAVY DUTY

MULTI-TOOTH

Special Carbide Tipped Percussion Core Bits are designed to drill large diameter holes with most rotary hammer drills. Carbide Tips can withstand continuous hammering action and give maximum drilling life.

	8" 18"	Bosch 11216, SDS-MAX Hilti TE 64, TE-Y, Hilti TE 72, 90	MD-PCS08MAX MD-PCS18MAX	76.28 93.14

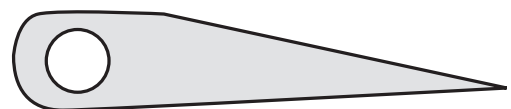

PERCUSSION CORE PILOT DRILL

Use a pilot drill for a more accurate starting position and to keep the hammer core drill from walking. The pilot drill is used only to start the initial starting groove and is then removed before drilling is continued.

SIZE AND DESCRIPTION	ITEM NO.	PRICE
