

CHROME VANADIUM WOOD (BRAD POINT) DRILLS

ICS WIS

SPECIAL PURPOSE

BRAD POINT

Brad Point Drills are designed to drill smooth, accurate holes in wood with minimum tear-out. Center spur point holds drill on target and prevents walking when two cutting spurs make contact with a surface, so even overlapping holes can be drilled. Drills are made of chrome vanadium steel and will stay sharp much longer than high carbon tool steels. Brad Point Drills Are also known as Dowelling Bits or Lip and Spur Drill Bits.
