

TOOL STEEL

HEXAGON (STANDARD SIZES) RETHREADING DIES

ICS WIS

GENERAL PURPOSE

CUT THREAD

Hexagon (Hex Nut Diameter) Rethreading Dies are designed extra thick for rethreading damaged or jammed threads and can be used to work in places where round die stocks cannot be used. They are not intended for producing new threads on unthreaded bars, bolts, or pipes. Available in almost any threading size. All sizes are manufactured to be the same size as a Hex Nut of equal thread size.
