

**CARBIDE TIPPED
HOLE SAWS**

ICS USA

SPECIAL PURPOSE

CARBIDE TIPPED

Carbide Tipped Hole Saws retain their cutting edge up to 10 times longer than high speed steel hole saws. They cut clean and accurate holes 1-7/8" deep. Carbide tips withstand heat and abrasion extremely well and can be run at faster speeds, resulting in a reduction of cutting time and cost per cut. They are not designed for cutting concrete, steel, or other ferrous materials. They are designed for cutting abrasive materials; i.e. fiberglass, particle board, insulation board, aluminum castings, and copper.
