

MACHINISTS' (AMERICAN PATTERN) FILES

STAINLESS STEEL FILES

ICS WIS

SPECIAL PURPOSE

CHISEL CUT

Designed for use in filing stainless steel and other hard-to-file metals with little to no clogging. Files are chrome plated and therefore corrosion resistant. Surface hardness of 72 RC for excellent wear resistance and long service life.

HAND

Flat Hand Files are designed for safe filing of internal corners and where metal must be removed rapidly. One edge is uncut or "safe" for filing one surface without damaging an adjoining one. They are double cut on both sides and one edge, and parallel in width. Similar to Flat Taper Files but taper in thickness and have one safe edge.
